

Dear iSTEPup sponsors,

I am Adriana Jeremiah, aged 21 years. I will continue with my studies and I am giving more thanks to you for helping me pay the school fees. Now I have finished the first semester, where I learnt professionalism of nursing, parasitology, human anatomy, infection prevention and control, computer application and communication skills. I will continue the second semester, where I will learn about pharmacology, basic clinical nursing, entrepreneurship, basic information management, application of nursing process and theory and disaster and emergency preparedness. I like using my time, knowledge and effort in studying hard, so as I can achieve my goal of helping my community. I am so humble and pleased to receive your support. God will bless you more and more.

Yours sincerely,

Adriana Jeremiah
