

Update Lusungu Moyo [March 2024]

What an exceptional semester it has been! Throughout these past few months, I have experienced a wonderful and successful period of learning. Theoretical and practical lessons were covered in great detail, with my mid-semester examination proving to be a fantastic achievement as I obtained a remarkable grade. It was an honor to participate in practicals at Queen Elizabeth Central Hospital where I was assigned to the female medical ward, male surgical ward, and Emergency Triaging Centre. During this time, not only did I achieve my objectives but also had the opportunity to learn beyond what was required.

After completing my practicals 2 weeks ago, we resumed classes which included two days of chemistry lab work. Our end-of-semester 2 examinations will commence on March 11th while our next semester is set to begin on April 1st. Words cannot express how grateful I am for iStepUp's unwavering support; your assistance has enabled me to focus solely on my studies.

Below is my mid-semester examination results and my journey photos.

May God bless the iStepUp team!
