

Update june 2024

Dear Istep up,

This is Isatu Kadiatu Turay from Sierra Leone.

I am writing to express my profound gratitude for your invaluable support, which has significantly contributed to my education. I am pleased to inform you that I have been promoted to the final year of my State Registered Nurse program. Currently, I am on posting, gaining practical experience and furthering my skills in preparation for my final exams.

I have two important exams to complete: the school final exams, which will commence in October, and the state final exams, which will commence in November. Your generosity has been a cornerstone of my academic journey, and I am deeply thankful for the opportunities it has provided me. I remain committed to making the most of this chance and excelling in my studies.

Thank you once again for your unwavering support."
