

Dear info istepup team and sponsors.

August 2024

Greetings to you all, am really grateful for the opportunity to study BSC nursing program. I am currently on holiday, awaiting for my second semester result. I am happy that I passed the first semester exams. These are some of the modules offered during my studies. Anatomy and physiology, biochemistry, clinical, foundation, fundamental, medical math and psychology. We have ever completed the first and second semesters of the first academic year in July 28/2024. I promised if my second semester result is out, I will pass them all and will be in second year ending of October after return from practicals. See study results on my page. (first semester result). During this period, we had inter annual class sports and football match competition, we equally participated in the sport activities in as much as we are only 5 ladies. Attached are picture 1 and 2 taken in front of our nursing department after classes with college's. (I am on the right next to the last lady putting on long red dress with hijab on my head. Picture 3 and 4 was taken during our matriculation period. and picture 5 was taken on our orientation day. other pictures are when we are in class with college's.

Thank you all,
From umu hawa saffiatu lawan.
