

The iSTEPup foundation is looking for a:

## Student Manager

iSTEPup – *the International Sustainable Tertiary Education Programme* – provides local scholarships for ambitious people living in low resource countries to become a nurse, midwife, doctor or pharmacist in their own country. It is our mission to train healthcare professionals where they are needed the most.

You will be responsible for maintaining contact between the foundation and the students and their buddies as you are the first contact person of our foundation for the students. An important task is to request for updates and results from students and adjust the personal student pages on our website. Furthermore, you will play an important role in the application process for new students who apply for a scholarship. As a student manager you will be part of the general board. Our board receives no financial compensation. It takes about 2 hours a week on average.

### What do we ask

- You are a team player
- You support our goals and believe an investment in tertiary education in low resource countries is important
- You have a good understanding of English
- You (have) preferably work(ed) in the field of healthcare or education

### What do we offer

- A chance to help us finding young people in low resource countries who have the ambition to become a healthcare worker but do not have the financial means to study
- Working with other dynamic voluntary global health enthusiasts
- Monthly meetings and selection days twice a year
- Social events and informal board gatherings every now and then
